Det er med stor stolthed, at jeg kan præsentere vores listekatalog på over 150 sider – som altid går vi til vores opgaver med stor umage og ydmyghed, med det mål at sikre vores kunder produkter af bedste kvalitet, brugbare materialer, stærke priser og en variation der er med til at skabe god forretning for vores kunder.

Alt dette mener vi at have skabt med vores store listeprogram, som rummer alle genrer af lister til indramningsproduktion – da vi i 2018 gik ind i lister i samarbejde med vores partner Molgra i Spanien, var målet at skabe det stærkeste sortiment – det er vi endnu ikke i mål med, men vi kan med sikkerhed sige at vi allerede i dag, har et absolut stærkt setup også på lister.

Udover samarbejdet med Molgra har vi udviklet vores egen Skandinaviske RÅ serie, i enestående flot kvalitet, som uden sammenligning er markedets bedste massive rå lister, der i den grad er tilpasset det skandinaviske marked. I denne serie har vi et særskilt listekatalog.

Fremadrettet vil vi styrke vores listesortiment yderligere og arbejde hårdt for at lykkes med det.

Rigtig god fornøjelse.

# Husk!

I vores hovedkatalog kan du finde alt i tilbehør til indramning.

Du finder bl.a.:

- glas, akryl og glasrens
- passepartout
- bagpap
- tape/ophængsprodukter
- emballage

*Vi har alt  
det du skal  
bruge!*

Endvidere har vi alt i produktionsudstyr til egen produktion af rammer.

# Horizon Collection

The HORIZON collection is born from the idea of an extreme profile, that fine line that reminds us of the horizon, decorated in neutral colors, will give the framed work a depth that will transport our gaze beyond.

## Hanging sketch using Dibond board

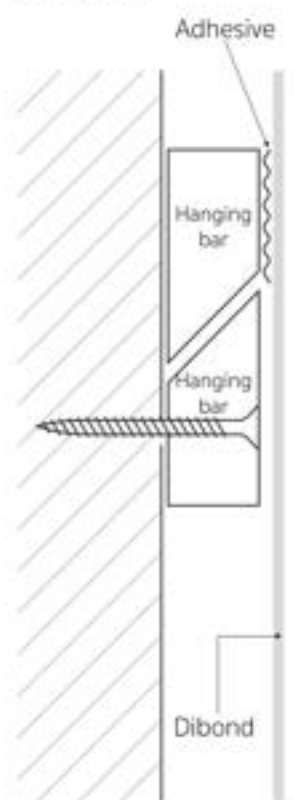

Slats specially designed for hanging plates of Dibond or other materials, keeping them separated from the wall.

Its bevel shape achieves a perfect fit on the wall in an easy way, allowing multiple assemblies.

## Hanging slats in Pinewood

Hanging bars in pine, specially designed to easily hang any painting or frame on the wall.

The shape of the profile, with its inclined interior channel, allows the profile to be screwed, nailed or stapled to the molding at the rear of the frame, thus giving it greater resistance. We present a sketch in cross section, with an example.

Attached to the frame, the slat with its pronounced lower bevel also allows a perfect fit on spikes or screws, keeping the frame completely vertical against the wall, in this way we can move the frame to the right or to the left as the case may be, without making new holes. Use in individual bars of approximately 3 meters.

# I 2025 UDVIDER VI VORES FACILITETER - IGEN

*Det er med stolthed at kunne informere om, at vi på vores adresse i Køge, bygger endnu en stor lagerhal. Den forventes efter planen at stå færdig i 2025, og vi glæder os til at kunne tage den i brug...*

*Årsagen til at vi allerede nu bygger, er at vi mangler plads til alle vores materialer. Siden vores sidste katalog i 2022/2023, er der kommet MANGE nye produkter i vores nye katalog..*

*Hallen bliver ca. 1.000 m<sup>2</sup> stor.*
